

WHAT IS CLAIMED IS:

1        1. A seat comprising a seat frame and a suspension fabric  
2        cover, the suspension fabric cover comprising: a shrink yarn and another  
3        yarn knit into a double jersey construction.

1        2. The seat of claim 1, wherein the another yarn is an air jet  
2        textured microfiber yarn.

1        3. The seat of claim 1, wherein the another yarn is a false twist  
2        yarn.

1        4. A seat including a seat frame and a cover prepared by the  
2        process comprising the steps of:  
3                 providing a seat frame;  
4                 placing over the seat frame a heat shrinkable double jersey  
5        knit cover prepared from yarns comprising a shrink yarn and another yarn;  
6        and  
7                 heating the combination of the frame and double jersey knit  
8        to result in a seat frame covered by a suspension fabric.

1        5. The seat of claim 4, wherein the another yarn is an air jet  
2        textured microfiber yarn.

1        6. The seat of claim 4, wherein the another yarn is a false twist  
2        yarn.

1        7. A method of preparing a seat comprising:  
2                 providing a frame;  
3                 placing over the frame a cover prepared from a double jersey  
4        knit prepared from yarns comprising a shrink yarn and another yarn, the  
5        knit covering at least a portion of the frame in a loose manner;

6                   heating the combination of the frame and knit; and  
7                   continuing the heating until the double jersey knit shrinks  
8 sufficiently to provide a suspension fabric cover for the frame.

1                 8.     The method of claim 7, wherein the another yarn is an air jet  
2     textured microfiber yarn.

1                 9.     The method of claim 7, wherein the another yarn is a false  
2     twist yarn.
